MARYLEBONE VILLAGE – THE LESSER-KNOW LONDON 'GO-TO' DESTINATION

This rather chic area of London, Marylebone Village, has a warm neighbourhood vibe and is full of indie boutiques, specialist pharmacies, fabulous restaurants, home and interior shops, health and beauty clinics and so much more...

It's easy to immerse yourself in the eclectic mix of shopping, eating and lifestyle experiences available to all in Marylebone Village.

We had enjoyed a full day of shopping in the individual boutiques in Marylebone Village but needed a little downtime before dinner at [28 – 50 Marylebone](#).

'Time goes quickly when you're having fun' as the saying goes, and when we returned to our hotel we just about had time for a quick shower, an email check, quick change before our very short stroll to 28-50 for our 8 pm booking.

28-50 is a wine workshop where you can arrange wine tasting and private dining for groups or events, but we were a group of four and in the main dining area. 28-50 has a young hip vibe and it attracts those that appreciate fine wines as well as fine dining. We began our evening at the bar watching the mixologists work their magic, we chose a different cocktail each, after all, part of the fun of cocktails is trying something new and trying each others, they were all delicious, packing an alcoholic punch, but fruity and fresh.

Cocktails enjoyed it was time to take our seats at a great table and make our dining choices. The menu is fantastic, we found it hard to choose, so we began with Jersey oysters and king prawns and shared them, these were absolutely sublime. We then chose various main meals, fillet steak, a burger, risotto and sirloin steak. Each dish was beautifully presented, steaming hot and perfect, accompanied with fries and salads. The service at 28-50 was warm and friendly and we were treated like royalty, but so was every other guest. The atmosphere was buzzing with happy diners on all of the tables. The décor and lighting made for a relaxed ambiance, we highly recommend this extremely special Marylebone restaurant.

This was not the end of our 28-50 dining experience, we decided to take our coffee and dessert over the road in the cozy basement jazz bar, where a three-piece jazz band was playing, it was the perfect end to a truly wonderful evening.

To see the a la carte menu for 28-50 please click [here](#)

Marylebone Village is a refreshingly exciting and vibrant London destination, the shopping and dining is varied and wide-ranging, Transport services and parking is simple, so, there really is no excuse, next time you fancy an experience away from the usual high street brands, Marylebone Village could be your new 'go-to' destination.
