

# ENJOY A CONTACTLESS CATERED CHALET THIS WINTER

In the eternal battle to enjoy a high-quality ski holiday but at a price that doesn't break the bank, Ski France has hit on the winning idea of the contactless chalet.

The aim is to provide the ease of a hotel, but with meals already waiting for you to heat up. In fact, your contactless chalet awaits with all the food and wine you'll need included for your stay. As this is all delivered at very affordable prices, it's much easier to budget ahead on your holiday costs.

You will arrive at your Ski France chalet to find delicious food in the fridge, chilled beer or wine ready to drink, a supply of firewood and newly made beds. Dinner, prepared by our own chefs and local Savoyard

delicatessens, is made up of dishes ready to pop in the oven or heat on the stove, fresh salad ingredients to put together and tasty desserts to enjoy. "We believe that with the rising costs of living and the pinch people are feeling because of this, contactless catering should provide an excellent alternative to classic catered chalets, as you can enjoy beautiful properties at a more affordable price tag, but still with the great food and drink all included in the cost," a Ski France spokesperson explained.

While Ski France's staff are not actually in your chalet during your stay, they are in resort with you and easy to reach with a quick call to answer any questions and help whenever needed. Halfway through the week, the chalet team will clean

your accommodation from top to bottom, replace towels and re-stock the fridge and cupboards with more goodies.

In addition to food, skis or snowboards can be reserved at the local hire shop, and lift passes can be booked as required.

Ski France has been in business for more than 30 years and has grown to offer 58 properties, including self-catering apartments and hotels, in more than 20 mountain destinations across France.

The company's contactless chalets are located in Courchevel, Tignes, Méribel, La Tania and La Plagne, with five new contactless chalets added this year in Alpe d'Huez and Val d'Isère.
