28°-50° Marylebone.

Originally a single site in Holborn, 28°-50° is now a chain of five chic bars/restaurants across London. There's Marylebone; its neighbouring jazz-centric venue 28°-50° by Night; Chelsea; South Kensington; and latest addition Oxford Circus. With the wine programme overseen by group head sommelier Jules Bensacq, each site has a decent selection of wines available by the glass or bottle, including a small collection of pricier drops by Coravin. This is supplemented by a 'Collector's List' of reasonably priced fine and rare bottles with a focus on France, supplemented by a decent showing of other wines from around the world.
