## Go private in Jackson Hole

With its legendary steep slopes that call to skiers and snowboarders from around the world, make the most of your snow exploration of Jackson Hole Mountain Resort with a private lesson. Mountain Sports School's private lessons are about creating not just a perfect lesson, but a perfect day for your group of up to five people. No matter what your ski level, a day here under the guidance of an instructor will enhance your knowledge, improve your technique, and give you an insider's tour of this spectacular Wyoming resort. Even better, you can be first on the mountain with Early Tram or Early Gondola additions to your private lesson, allowing you to swoop down untouched runs. ### A bucket list ski safari through BC

Canada's British Columbia is the pinnacle for snow lovers, its resorts overflowing with down-to-earth mountain charm and dreamy winter experiences. Start in Vancouver with its diverse culinary experiences and natural beauty, before falling into the snowy embrace of Whistler, boasting exquisite high-end accommodation and a massive amount of terrain. The Powder Highway, with a side of hot springs, then beckons, with Revelstoke, Red, Panorama, Whitewater, Kimberley, Kicking Horse and Fernie, where David Beckham and son Cruz went cat skiing last season. Sun Peaks and Big White are also world-class resorts, or if you prefer airborne thrills, pair a Whistler trip with a week with Northern Escape Heliskiing in the Skeena Mountains.
